blüV

The Ultimate Pure

blüV by Purlogix™ incorporates leading-edge technology and high quality components for superior water purification. The sleek curvature and aesthetics of blüV fit into any workplace environment while delivering a continuous supply of hot and cold drinking water.

blüV by Purlogix™ Series Features:

- Available in a stylish two-toned color — designed to fit perfectly in any workplace setting
- Durable heavy gauge, powder-coated steel construction
- Spacious dispense area for large containers
- High-capacity drip tray with removable screen
- Dispense area LED light
- Pure Touch dispensing system
- Ultraviolet Disinfection (blüV Protection) with LED light notification
- Anti-microbial touchpad surface protects against germ cross-contamination
- Service notification LED light on user interface
- Integrated leak detection
- User-friendly, conductive touch interface with safety HOT feature

Multi-Stage Filtration

The blüV by Purlogix™ Series (BV-RP, BV-MP) multi-stage purification process removes contaminants and delivers hot or cold water through a sanitary electronic dispense port. Flexible filtration or reverse osmosis options ensure that there is a blüV by Purlogix™ model to suit any requirement and meet any need.
