Introducing
AFS-TEX™
ANTI-FATIGUE SYSTEM
Standing Mats

Prolonged sitting is identified in global studies as a critical risk factor for many serious health complaints. However, standing without a mat can be jarring on your joints over time. AFS-TEX anti-fatigue mats are ergonomically designed to help users comfortably stand for longer periods of time.

Made with premium materials for comfort and enhanced with key design features to encourage regular movement, AFS-TEX anti-fatigue mats are suited for sit-to-stand deskings in office environments, as well as industrial and home use.

AFS-TEX System 2000

This entry level anti-fatigue mat is designed to relieve the strain of prolonged standing. Featuring a print which acts as a visual cue to encourage regular movement. Available in a choice of color and size.

AFS-TEX System 3000

Features a soft polyester cover with inbuilt anti-microbial ingredient - this protects the mat from microbial deterioration. Designed for comfort on larger areas to relieve the strain of prolonged standing.

AFS-TEX System 5000

Designed specifically for use with stand-up desks, the ergonomic features of this premium mat actively encourage movement. Pressure points and a massage bar relieve strain caused by prolonged standing.

AFS-TEX System 5000 S2S

The perfect combination of anti-fatigue mat and chair mat, S2S is the ultimate solution for sit-to-stand desking comfort. Ergonomically designed to reduce leg fatigue during standing work and allow easy-glide movement when seated.
