

# Great Openings' Lockers: Now in Laminate

In addition to our industry-leading family of metal lockers, Great Openings now offers laminate lockers. The warmth and versatility of laminate construction is a great complement to all that GO offers. Laminate lockers are available in most of Great Openings' standard locker dimensions. Choose from a wide selection of Wilsonart and Formica wood grains and patterns, both TFL and HPL. With the relative ease of laminate customization, we also welcome special requests.

## Door Pulls

Customize the aesthetic of your lockers with a selection of door pull styles.

UM Series
